**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adriana Burgy on November 28, 2005.

The application has been amended as follows:

Claims 1, 23, 24, 32 and 34, in the definition of  $R_3$ , at the end of the definition of  $R_3$ , after "4, 5, 6, or 7" insert -atoms-.

Claims 9, 14 and 18, line 2 of each, delete "compound" and insert -radical-.

**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate or render obvious the claimed compounds, dye compositions, process of oxidation dyeing or kit. The closest prior art compounds are disclosed in U.S. Patents 6,461,391, 6,521,761 and 6,946,005. The compounds disclosed therein are similar to the compounds of instant formula (I) in that they are cationic 4-aminophenyl-1-pyrrolidine derivatives that contain a nitrogen-based onium radical. These compounds differ from the claimed compounds in that they lack the R<sub>2</sub> substituent at the 2-position of the pyrrolidinyl radical. The references provide no motivation to modify the compounds disclosed therein to arrive at the claimed compounds.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.
